RE: warden memorandum

06-209 (JJF)

This is to show you that he did not care at all what I told him in letter. The one that they put me in the hold because I ask for help with my Health not during treatment right now I can't but when I get help then I will get help. and for the first time in all the letter the warden wrote to me, as you can see this is his sign, the other was stamp on them. I sometimes think he did not see all my letter crying for help so can some one please get me out of this Jail. they are doing to me what ever they want in here. Thank you for your help & time God Bless you

David Lyons

Also Miss Solter came today in said if I wanted to sign the paper to the Key program I said to her I need medical help not no program, I am sick to think about any program so she got mad and is keeping me in the hold for not signing the Key program. Its wrong don't we have the right to say yes & no I am paying for being sick. Is that right?
